YEMELYANOV EDUARD

FRONTEND DEVELOPER | REACT | NEXT | TYPESCRIPT | OPENAI API

With over 2 years of experience in web and mobile development, I have honed my skills to become proficient with React and Next. I'm a passionate, pro-active, and dynamic front-end developer dedicated to crafting clean, well-thought-out code and possessing an excellent eye for UX. My enthusiasm for software development goes beyond mere career interests; it's a hobby that I wholeheartedly embrace.

EXPERIENCE

FRONTEND DEVELOPER

Hathor Productions OÜ | JAN2022 – NOW

- Designed, developed and maintained front-end with React and Next (TypeScript).
- Optimized front-end by using React best technologies such as lazy-loading, React context APIs.
- Converted UI/UX design to highly scalable and responsive web application with cross-browser compatibility.
- Worked closely with stakeholders and product management teams
- Integrated REST endpoints and 3rd party APIs in frontend.
- Performed unit testing with Jest.
- Gained experience with large modular application created in micro-frontend methodology.
- Enhanced user experience and accomplished webpage objectives by creating site structure, navigation, page optimization, and graphics integration
- Integrated both RESTful endpoints and GraphQL endpoints in React.js application by using Apollo library

FRONTEND (REACT) DEVELOPER

UKRTECH.INFO | OCT 2021 – DEC 2021

- Collaborate with Web Dev Team and Head of Technology in real and interesting product tasks
- Selection and implementation of the necessary tools, technologies, and techniques;
- Designing and implementing of an application architecture;
- Code review and code quality control;
- Writing optimized code if needed.

SunInBev, PepsiCo, Obolon and others – sales

2006 – 2016
representative: distribution and presentation of goods

State employee

2000-2006

EDUCATION

IT ACADEMY STEP

cours | 2020 – 2021

- front-end developer course

Ternopil Academy of National Economy

master degree | 1999 – 2005

- foreign trade management

National Aerospace University -'Kharkiv Aviation Institute'

bachelor's degree| 1996 – 2000

- Aerospace, Aeronautical and Astronautical Engineering

CREATED PROJECTS

Ethereum-based DApp creation of smart contracts
 (stack: next, openai-edge-stream, auth0, mongodb, tailwindcss and etc.)

https://ether-smart-contract.vercel.app/

ChatGPT clone with Next.JS & OpenAI
 (stack: solc, web3, truffle/hdwallet-provider, next, typescript, tailwindcss, ganache, mocha and etc.)

https://chat-my-openai.vercel.app/.

Online store "Fashion" SPA
(stack: Webpack, React, GraphQl , Dgraph, Apollo clients, react-hook-form, yup, framer-motion, SCSS etc.)

https://fashion-store-gql.vercel.app/#/

Gaming summit website
under construction(stack: Next, TS, react-hook-form , sass, etc.)

https://gaming-summit-tamplate.vercel.app/

Test page for animation demonstration
– (stack: JS, Sass, HTML, Gulp, Webpack, ScrollMagic, etc)

https://nikolaefpost.github.io/Animations_test/

Business card website SPA
– (stack: React, GraphQl , Dgraph, Apollo , Bootstrap, framer-motion, etc.)

https://business-card-website.vercel.app/

Next-basis– basic features of Next
(stack: Next, TS, axios, react-hook-form , sass, framer-motion, etc)

https://next-basis-project.vercel.app/
